### Xerox AltaLink C8070 copier/printer installation for MAC:

General Remarks: Setting up a Mac to print to the Gates Xerox AltaLink C8070 copier/printing machines is about like any other printer setup – Download the driver from the company, do the install, and then select the printer to be used on the net. The only special step is getting the copy code loaded into the install. This copy code (Xerox UserID) is generally gotten via your administrator (class TAs get a black/white only code from CS Ed. Affairs).

1. Go to URL <u>https://www.support.xerox.com</u> and select AltaLink C8070.

## 2. Select for Built-In Controller and Mac OS version
