

# Xerox D110 Printer Setup for Mac

## 1. General Remarks

Setting up the Macs to print to the Gates Xerox D110 copy machines is about like any other printer setup – Download the driver from the company, do the install, and then designate the printer on the net. The only special step is getting the regular **copy code** loaded into the install.

## 2. Get Driver

Go to [//www.xerox.com](http://www.xerox.com) > support and drivers > select Xerox D110 > Currently the driver: Mac OSX Print Driver Installer Package 10.6,10.7,10.8

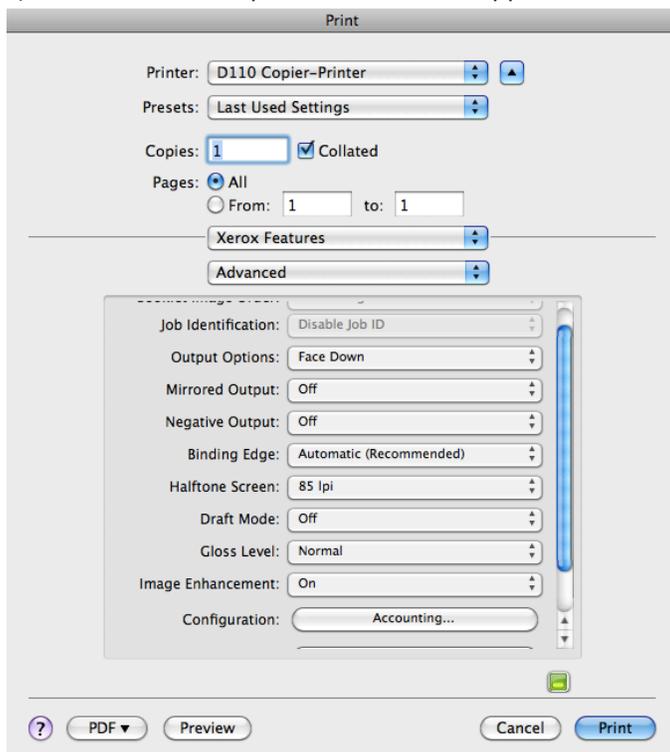

## 3. Normal install procedure

Execute the install – if their search for the available Xerox printers is not successful a click on the window will print up a request for the NetDB host name (xerox1b.stanford.edu)

## 4. Input Xerox D110 Copier's Configuration Options:

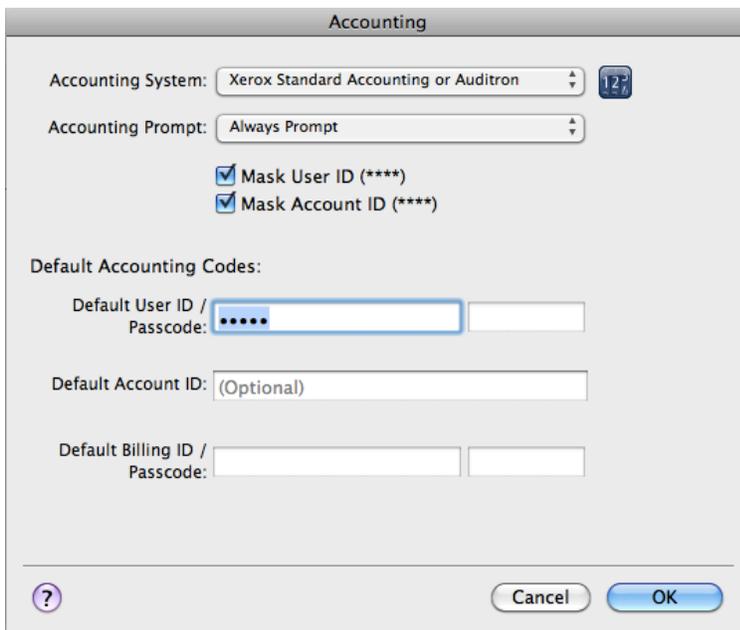

\*Select the file you want to print, go to File>Print, change the setting:

- Override Preview (or Mail or whatnot) to choose "Xerox Features"
- In the choice dropdown which then appears, choose "Advanced"

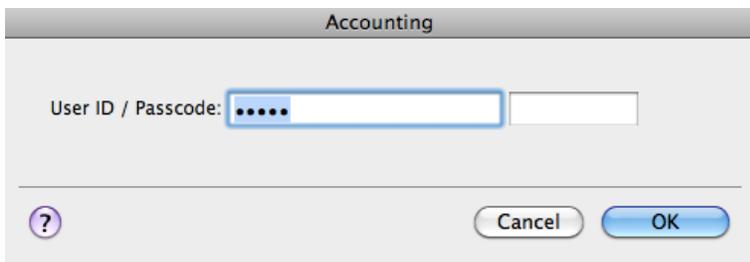

\* Click on "Accounting",

- a) Use the first dropdown to choose "Xerox Standard Accounting or Auditron"
- b) The "Always Prompt" option is currently required
- c) Input your copy code in "Default User ID" box

The screenshot shows a dialog box titled "Accounting". It contains the following elements:

- Accounting System:** A dropdown menu set to "Xerox Standard Accounting or Auditron" with a small icon to its right.
- Accounting Prompt:** A dropdown menu set to "Always Prompt".
- Masking Options:** Two checked checkboxes: "Mask User ID (\*\*\*\*)" and "Mask Account ID (\*\*\*\*)".
- Default Accounting Codes:** A section with three input fields:
  - Default User ID / Passcode:** A text field containing five dots, with a small icon to its right.
  - Default Account ID:** A text field with the text "(Optional)" inside.
  - Default Billing ID / Passcode:** Two adjacent empty text fields.
- Buttons:** A question mark icon on the left, and "Cancel" and "OK" buttons on the right.

This screenshot shows a close-up of the "Default Accounting Codes" section from the previous dialog box. It features a single text input field labeled "User ID / Passcode:" containing five dots, with a small icon to its right. Below the field are a question mark icon, "Cancel", and "OK" buttons.

You are ready to print!
